In 2009, Village Council passed an Ordinance that would allow for a method to keep the cost of operating utilities in line with the fees associated with that utility. Ordinance 2009-03 indicates that after December, the Consumer Price Index (CPI) will be used to determine what is needed to maintain a rate schedule consistent with costs. The historic percentages are indicated to the right. The current percentage is 2.1% and will be reflected in the next billing cycle. The impact of the rate change can

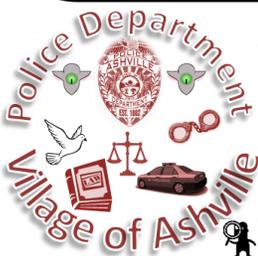

be seen on the below table which is based upon a per 1000 gallons of usage. The Water Tower fee is not impacted by the CPI. A description of the CPI and more information can be found at www.ashvilleohio.gov
